Summary

This bulletin provides information about the operation of the Northeast Order during 2019 through a series of tables and charts. The *Bulletin* Highlights section summarizes important events that impacted the dairy industry in 2019. Also included are lists of handlers and cooperatives operating under the Order with their respective locations depicted on a map of the region.

Order Volume Decreases

Total milk received from producers equaled 26.8 billion pounds in 2019, down 1.3 percent from 2018. Even though the total amount of milk pooled on the Order declined, the average volume per producer topped 7,000 pounds every month during the year and grew 6.9 percent from 2018. This was the highest year-over-year increase since the Order's inception. The year ended with 813 fewer producers than at the end of 2018, the largest year-to-year drop recorded for the Order.

Class Utilization Changes

Class I utilization averaged 31.0 percent in 2019, down 1.1 percentage points from the previous year. The volume of milk used for Class I purposes declined 417.7 million pounds (4.8 percent) from 2018. The total volume of producer receipts used in Class II decreased 1.4 percent from 2018. This decline resulted in a slight decrease in the utilization percentage to 23.9 percent of total producer milk pooled in 2019. Class III volume decreased 1.1 percent and utilization averaged 26.8 percent, down 0.1 percentage point from 2018. The amount of milk used in Class IV rose 5.0 and accounted for an annual average of 18.3 percent utilization, an increase of 1.1 percentage points. Total Class IV volume was the second highest ever since the Order's inception.

Prices Higher Than 2018

Commodity Prices—National Dairy Product Sales Report (NDPSR) butter prices were similar to 2018, averaging \$2.2431 per pound and only 0.6 percent below the previous year. February, March, and April of 2019 recorded record-setting monthly high butterfat prices. Cheese prices bumped up about mid-year and finished with the highest average since 2014. Block prices were the driver for most of the year; barrel prices jumped and surpassed block prices in November 2019. The NDPSR cheese price averaged \$1.7586 per pound in 2019, up 14.4

percent from the previous year. Protein prices began to climb at the end of the first quarter and ended the year with the second highest prices recorded for November and December; only 2007 were higher. Nonfat dry milk, and correspondingly nonfat solids, reported their strongest prices since 2014. The NDPSR nonfat dry milk price averaged \$1.0419 per pound, up 31.1 percent from 2018. Dry whey prices were above the previous year, but not as strong as in 2017. The NDPSR dry whey price averaged \$0.3799 per pound, an increase of 11.0 percent from the prior year.

Component Prices—All component prices averages were above the previous year except butterfat. The price paid to producers for butterfat averaged \$2.5088 per pound, down 0.7 percent from 2018, but the third highest reported since the Order's inception in 2000. The per-pound annual average protein price was \$2.3796 per pound, up 44.2 percent from last year's record-setting low. The other solids price averaged \$0.1862 per pound, an increase of 26.3 percent from 2018. The nonfat solids price averaged \$0.8654 per pound, 39.5 percent above last year's record-setting lowest price.

Class Prices—The increase in component prices translated into class prices that were about 12-16 percent above those in 2018. The Class I price averaged \$20.24 per hundredweight in 2019, up 11.9 percent from the 2018 annual average. The Class II price averaged \$16.76 per hundredweight, an increase of 13.2 percent from the previous year. The Class III price averaged \$16.96, up 16.0 percent from 2018. The Class IV price increased to \$16.30, an increase of 14.5 percent. Overall, the statistical uniform price (blend) reported at Suffolk County, Massachusetts (Boston) averaged \$18.12 per hundredweight, 12.6 percent above the 2018 average.

Producer Tests

The annual average producer butterfat test equaled 3.90 percent in 2019, an increase of 0.04 percentage points from 2018. Record highs were set during all months of 2019 except August with tests topping 4.00 in November and December. The annual average producer protein test was 3.10 percent, up 0.01 percentage points from 2018; a record high was set in February and tied in March and September. The producer other solids test rose to a record-high average of 5.76 percent, up 0.01 percentage points from last year; records were set in 4 months and tied in 2 months in 2019.

* Producer receipts data based on audited producer payroll reports of pooled producers. Totals may not add due to rounding.

** Counties with fewer than 3 producers are restricted and have been consolidated into the "all other" category. Some counties had more than 3 producers, but had fewer than 3 handlers pooling milk during the month.

*** Represents restricted data for the states of Delaware, Indiana, Iowa, Kentucky, Michigan, Minnesota, New Jersey, North Carolina, Ohio, Rhode Island, Tennessee, Virginia, West Virginia, and Wisconsin.

* Producer receipts data based on audited producer payroll reports of pooled producers. Totals may not add due to rounding.

** Counties with fewer than 3 producers are restricted and have been consolidated into the "all other" category. Some counties had more than 3 producers, but had fewer than 3 handlers pooling milk during the month.

*** Represents restricted data for the states of Delaware, Indiana, Iowa, Kentucky, Michigan, Minnesota, New Jersey, North Carolina, Ohio, Rhode Island, Tennessee, Virginia, West Virginia, and Wisconsin.

* Producer receipts data based on audited producer payroll reports of pooled producers. Totals may not add due to rounding.

** Counties with fewer than 3 producers are restricted and have been consolidated into the "all other" category. Some counties had more than 3 producers, but had fewer than 3 handlers pooling milk during the month.

*** Represents restricted data for the states of Delaware, Indiana, Iowa, Kentucky, Michigan, Minnesota, New Jersey, North Carolina, Ohio, Rhode Island, Tennessee, Virginia, West Virginia, and Wisconsin.

Bulletin Highlights — 2019

January

According to U.S. Department of Agriculture (USDA), National Agricultural Statistics Service (NASS), U.S. milk production increased 7.2 percent between May 2013 through May 2018. Maps illustrated U.S. milk marketing changes from May 2013 as compared to May 2018.

A summary of the 2018 Northeast Order Market Service calibration program was given, as were the results of tank checks/calibrations. A chart illustrated tank checks and calibrations by tank size for 2018. A table announced the tentative calibration truck schedule for 2019.

February

USDA announced the amendment to the Class I skim milk price formula under the Federal Milk Marketing Order (FMMO) program, in accordance with the Agriculture Improvement Act of 2018 (2018 Farm Bill), effective May 1, 2019. A table displayed an example of the new calculation.

Milk production, cow numbers and production per cow were compared for the U.S. and Northeast milkshed for 2018 vs 2017. A table showed the top ten states ranked by milk production for 2018.

Authorization for the Dairy Forward Pricing Program, contained in the Food, Conservation and Energy Act of 2008 (the 2008 Farm Bill), was extended through September 30, 2023, in the 2018 Farm Bill.

March

Changes in rankings and the proportion of farms and daily deliveries per producer (DDP) in the top ten Northeast Order counties in 2018 were discussed. A map depicted the top ten counties: their rank and percent change in pounds, farm numbers, and DDP from 2013 through 2018. A table showed milk production, number of farms, and average daily deliveries per producer in the top ten counties pooling on the Order for 2018.

USDA announced \$1.5 million in competitive grant funding available for the Dairy Business Innovation Initiatives authorized through the 2018 Farm Bill.

Pool data for all federal orders was summarized in a table for January–March, 2018 and 2019.

April

The USDA's NASS released their *Dairy Products 2018 Summary*. Changes in national cheese

production and other products, top manufacturing states, and percent of total milk production were discussed. A table highlighted selected products' changes from 2017 and 2013 to 2018, and a comparison of Northeast Order milk used in the manufacture of these products.

A market situation update reported the average statistical uniform price (SUP) at the Boston, MA, zone for January through April 2019 and a projected average for 2019 using the Chicago Mercantile Exchange's (CME) Class III and Class IV milk future prices. A chart showed the SUP for 2016 through April 2019 and the projected prices for the remainder of 2019. Another chart presented total pooled milk volume and average DDP on the Northeast Order for the months of January through April for the years 2000–2019.

May

Based on average component tests reported on the Northeast Order at pool time, the test levels of protein, butterfat, and other solids in producer receipts all have increased since 2009. A discussion was held on differences in levels and trends by farm size. Charts presented averages for butterfat, protein, and other solids tests, from 2009 through 2019, for three size categories and the average for all producers.

The trend of overall decreasing milk sales, but increasing whole milk sales, continues in the Northeast Marketing Area (NMA). Tables showed sales and proportion of sales by product in the NMA and total per capita sales in the NMA and estimated U.S. for selected years.

June

In April, a plant operator requested the Market Administrator of the Northeast Order reduce the percentage of milk that pool supply plants and cooperative Section 1000.9(c) handlers must deliver to Class I pool distributing plants from 20 to 10 percent for the months of September, October, and November. The Market Administrator's office, as permitted by Section 1001.7(g) of the Northeast Order, approved the reduction until further notice.

The SUP for the first six months of 2019 averaged \$17.28 per hundredweight (cwt) at the Boston, MA, base zone for the Northeast Order. Using CME futures prices as of July 10, 2019, the SUP projected

Bulletin Highlights — 2019 (continued)

to average \$18.28 per cwt for 2019. Butter, cheese, nonfat dry milk, Northeast pool volume, and export trends were highlighted. A chart presented the SUP for the most recent four years and the projected prices for the remainder of 2019.

Pool data for all federal orders was summarized in a table for January–June, 2018 and 2019.

July

Milk production for the U.S. and Northeast milkshed for the first 6 months of 2019 was compared to the same time period in 2018. Northeast Order pool volume was discussed. A table showed the top ten states ranked by milk production and selected areas for 2018 vs 2019. A map illustrated the year-to-year percent change in milk production for the NASS 24 major states for January through June 2019.

Changes in milk pooled by county within the Northeast Area milkshed were discussed. A map displayed changes in federal order pooled volume in Northeast counties for December, 2013 vs 2018.

August

Total milk receipts pooled on the Northeast Order for the January through August 2019 period were 2 percent below the same time period in 2018. The article discussed year-to-year comparisons of utilization by class. Percent changes in utilization of selected products were displayed in a table comparing 2019 to 2010, 2014, and 2018.

The Milk Donation Reimbursement Program (MDRP), a provision of the 2018 Farm Bill, became effective September 16, 2019. An explanation of the MDRP was given.

A map illustrated all counties in the U.S. containing producers that had milk pooled by FMMO regulated handlers for the month of December 2018.

September

The average SUP for the first three quarters of 2019 was \$17.81 per cwt at the Boston, MA, base zone for the Northeast Order, \$1.72 less than the same time period in 2018. The article discussed current and projected butter, cheese, nonfat dry milk, and dry whey prices, Northeast pool volume, and exports. Charts displayed actual and projected

SUPs and product prices per pound for January 2016 through March 2020.

USDA announced the University of Tennessee, the University of Wisconsin, and the Vermont Agency of Agriculture, Food and Markets were grant recipients for the Dairy Business Innovation Initiatives.

USDA Grants requested feedback from farmers and the agricultural industry.

Pool data for all federal orders was summarized in a table for January–September, 2018 and 2019.

October

The October 2019 producer price differential (PPD) was \$0.00 per cwt for milk delivered to plants located in the Suffolk County, MA (Boston) zone, the basing point for the Northeast Order. Milk delivered to plants located in the zones below \$3.25 received a negative PPD. A table displayed the Order's pooled milk from producers by plant location at which priced for October 2019.

A table showed the proportion components contributed to the weighted average SUP (at average pool test) for the month of October for the years 2012, 2015, 2018, and 2019 for a hypothetical farm producing 100,000 pounds of milk at pool average component test.

November

The Northeast Order SUP was forecast for 2019 and 2020. Demand and supply factors were analyzed for 2019 and predicted for 2020. A chart displayed actual and estimated milk, corn, soybean, and diesel prices from 2015 through projected 2020.

A schedule showed the 2020 dates for partial payments to producers who are not members of cooperatives. The Order requirement was explained.

December

Northeast Order's total milk received from producers equaled 26.8 billion pounds in 2019, a decrease of 1.3 percent from 2018. Selected Northeast Order statistics for 2019 were summarized, and a table compared the Order's pool statistics for 2018 and 2019. A chart illustrated the class utilization of milk pooled on the Order for 2019.

Pool data for all federal orders was summarized in a table for January–December, 2018 and 2019.

USDA Civil Rights Policy Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.
