The actual price received by an individual dairy farmer will vary as the composition of a farm's milk differs from the component benchmarks. The PPD represents each producer's share of the value generated by the marketwide pool. The PPD is added to the payment producers receive for their milk's components and is adjusted for the location of the receiving plant(s). The SUP and PPD decrease by scheduled amounts the further away the plant(s) receiving the producers' milk are from Suffolk County, MA (Boston) \*

The actual price received by an individual dairy farmer will vary as the composition of a farm's milk differs from the component benchmarks. The PPD represents each producer's share of the value generated by the marketwide pool. The PPD is added to the payment producers receive for their milk's components and is adjusted for the location of the receiving plant(s). The SUP and PPD decrease by scheduled amounts the further away the plant(s) receiving the producers' milk are from Suffolk County, MA (Boston) \*
